

Exercise 4: Doubly-linked List

Due Date:

- **MW class:** Monday, **September 21**, at the beginning of class.
- **TTh class:** Tuesday, September 22, at the beginning of class.

Turn in:

- The **Functions.cpp** file named **A250_E4_YourLastName_YourFirstName**
- Do **NOT** turn in the whole project.

For this exercise, you may work with another student. If you do so, write **both names in the header**, but turn in **two copies** of the project, one with your name on the folder and the other with the other student's name on the folder.

Use the **DoublyLinkedList project** to complete the exercise. This project contains a **class DoublyList** that needs to be completed. Implement the necessary member functions of the class in the **Functions.cpp** file.

Specifications for each function are written in the function comments.

Make sure you:

- Do **NOT** modify any of the code given.
- Write code **ONLY** where indicated.
